Floral College is located on the East side of Lumber River, in Robeson County, N. C. While the citizens of this section of country had long deserved well for their attention to the education of their sons, they seemed for a while wanting in attention to that of their daughters; but the establishment of this Institution is evidence that this is no longer true.

A Charter was granted by the Legislature of North Carolina in January 1841, and it went into operation in June following, under the superintendence of the present incumbents. It is also under the management of a Board of Trustees elected annually.

From want of experience and means, it had many difficulties to encounter; but after some ebbings and flowings, it has risen to an eminence far transcending the most sanguine hopes of its friends. It is now furnished with many of the helps of imparting instruction,—such as Pelton's Outline Maps, Astronomical Charts, Orrery, Globes, and a well selected Chemical and Philosophical Apparatus.

With all these helps, and with an able and experienced Faculty, the founders of the Institution hope now to afford their daughters as complete and thorough an Education, both literary and ornamental, as can be obtained anywhere, and at a comparatively moderate expense.
